

FT-460 Flip Top Cash Drawer, black

The main reason to choose a flip-top cash drawer is the significant space saving. All other features and capabilities of classical pop-up drawer are preserved. Moreover - the inner tray can optionally be lockable with separate key. This point-of-sale (POS) drawer has metallic body, and the internal tray with slots is replaceable.

FT-460 Flip Top cash drawer has an easily removable inner part for bank notes and coins, which may be closable and lockable by second key (optional). The inner tray contains 8 coin compartments and 6 compartments for bank notes. It is equipped with a front slot for non-cash transactions and other documents.

Main advantages of the FT-460 Flip-Top cash drawer

- Slip deposit slot for non-cash transactions
- Rugged metal casing with keylock
- Internal tray with second keylock
- 6 slots for bills, 8 slots for coins
- Receipt printer interface
- Electronically lockable
