## OPC-3301 Wireless CCD scanner 1D barcodes, BT

OPC-3301 is a wireless CCD 1D bar codes from Opticon, which communicates right with each other devices using wireless Bluetooth technology. It is equipped with aggressive scanning engine to provide both fast and accurate scanning. OPC-3301 seamlessly reads barcodes with low contrast codes with high density.

Wireless reader OPC-3301 is specifically designed for ergonomic scanning. Thanks to the pistol grip and low weight naturally fits in the hand, allowing for comfortable use throughout the day.

OPC-3301 uses Bluetooth technology, which allows data capture and instantly transmit into the system, or when the device is out of range, save barcodes scanned into memory and send it later. This prevents data loss and increase work efficiency.

Durable reader cover ensures reliable operation even in demanding environments and provides protection against a fall onto concrete from a height of two meters.

Opticon awards the user with <u>a free worldwide accesible setup tool</u> as an addition to the standard way of setting up the device using pa rinted barcode manual.

## **Technical Description**

## Functionality & Operation

1MB DRAM
Bluetooth® Class II v2.1 EDR
Bluetooth®
All standard one-dimension barcodes
1D Imager
55-75 mm
visible red LED 623 nm
300scan/s
Li-Ion 1100 mAh, 3,7V
black, white
127g
Width: 113mm, Height: 132mm Length: 56mm
ABS plastic
0 to 50°C
-20 to 60°C
IP42
does from 1.5 or outs accounts surface
drop from 1,5 m onto concrete surface
10-100 Hz with 2G for 1h.
