Rubber Protection Case for Opticon OPN-2001, OPN2005, OPN2006

This silicone case fully encloses the scanner, offering maximum protection for your scanner without compromising it's functionality.

The rubber case tightly surrounds the data collector. Anti-slip surface ensures good grip. The case protects the pocket barcode scanner from impact after a fall and from dust and dirt. All buttons under the case work the same as without it, and the LED indicators are clearly visible under the transparent case.

Technical Description

Mechanical

Body housing	silicone
Weight	7g
Dimensions	Width: 35mm, Height: 65mm Length: 18mm
Color	transparent anthracite
