PKB-111 Programmable POS keyboard, 111 keys, USB, black

Programmable keyboard with 111 keys, optionally equipped with bar code slot reader or with magnetic cards slot reader.

In the box with keyboard you will find also the bundled software for seting up and saving the keyboard sequences, as well the set of transparent caps for each key.

As an addition, you can buy the keys waterproof cover. It is good especially in restaurants or drinks shops, where spill of keyboard by liquid can happen.

Features

- the keyboard is occupied with 2 KB internal memory
- there can be set up to 255 characters depending on the memory on each key
- for ALT, CTRL, SHIFT keys you can set up a key press and key release separately (and so eg. the often used CTRL + F search sequence is no problem)
- all alphanumeric characters, 12 function keys, all the special IBM characters (SHIFT, CTRL, ALT, ESC), 255 ASCII characters can be set
- programming mode either ASCII code or SCAN code
- it can operate with or without a standard keyboard

Technical Description

Functionality & Operation

Communication interface	keyboard

Electrical

Power Source	+5V ±10%

Mechanical

Dimensions	Width: 375mm, Height: 47mm Length: 176mm
Weight	1300g

Environment

Operating temperature	0 to 50°C
Operating humidity (non-condensing)	20 to 90%
Storage temperature	-40 to 60°C
