

Zebra TC8000 4" Touch Mobile Computer, laser, WIFI, Android

The TC8000 is the ground-breaking all new warehouse mobile computer designed to deliver revolutionary productivity increases in the warehouse. In fact, on average, it saves 14% per worker versus the traditional form factors. It's like gaining an extra hour of productivity, per worker, per day.

The Zebra TC8000 Touch Computer features a revolutionary new design that has been shown to improve worker productivity by as much as 14%. This new approach moves always from the traditional gun or brick style handheld and places the main part of the computer at the end-of-a-handle. Combined with an angled scan approach, the TC8000 design eliminates the need for the worker to constantly tilt the screen back-and-forth between scanning and screen viewing resulting in a 55% reduction in wrist motion. Additionally, the TC8000 has a 33% weight reduction when compared to traditional devices that translates to 15% less muscle effort.

The TC8000 also has many other features that you've come to expect in Zebra handheld computers designed for use in scan-intensive environments like warehouses and distribution centers. This includes ruggedness (8 foot drop), triple-shift battery power, and multiple scan engine options (laser, 2D imager, mid-range imager and long-range). The TC8000 uses the Google Android operating system with Mobility Extensions to transform it into an enterprise-class device.

Other features of the TC8000 include a 4" color touchscreen (no keyboard), 802.11 a/b/g/n and Bluetooth 4.0 wireless communications, and All-touch Terminal Emulation.

Key features:

- Superior ergonomics for superior productivity and worker comfort
- Rugged and ready for your warehouse
- Enterprise-class android kitkat
- Triple-shift battery power and unsurpassed battery management
- Capture multiple barcodes and entire forms with a single scan with SimulScan
- Advanced touchscreen technology for flexible data input

Technical Description

Functionality & Operation	
Communication interface	USB, WLAN (WiFi), Bluetooth 4.0
Memory	1GB RAM / 4GB FLASH
CPU Type	Dual Core 1,7 GHz processor
Display type	4" LCD color
Operating system	Android
Expansion slot	Micro SD Card (SDHC)
Touch-screen panel	capacitive multi-touch
Optical	
Resolution	800x480 px
Camera	8 MPix, with Autofocus
Electrical	
Main battery pack	Rechargeable Li-Ion battery 6700 mAh Hot Swap
Mechanical	
Dimensions	Width: 233mm, Height: 76mm, Length: 64mm
Weight	500g
Environment	
Operating temperature	-20 to 50°C
Storage temperature	-40 to 70°C
Shock resistance	multiply drops from 2,4 m onto concrete surface
Storage humidity (non-condensing)	5 to 95%
Operating humidity (non-condensing)	5 to 95%
Ingress protection	IP65
