

Kiosk, TOUCH, Android, QuadCore 1.6GHz, 2GB RAM, thermal print, 1/2D reader, payment's terminal

Nowadays, kiosks are increasingly used not only for an information, but also for self-service selling. You can read the barcode from your order with the built-in scanner and after reading to pay directly with the payment's terminal and print the receipt. CODEWARE is a manufacturer of hardware solutions, software solutions can be customized (by CODEWARE). The hardware solution with special design can be changed.

Key features:

- 15" PCT monitor
- OS Android
- 300mm per second print speed
- Ultra-fast 100 frames per second CMOS imager sensor enables high speeding scanning of 1D and 2D barcodes
- Rapidly scans and decodes a wide variety of 1D or 2D barcodes

- Fast global shutter technology with auto exposure – easily scan barcodes off a wide variety of surfaces
- Exceptional motion tolerance for moving applications
- Improved scanning of curved, wide and poorly printed barcodes
- Payment’s terminal
