HUR-120 UHF RFID reader, USB, Handheld

HUR 120 USB is a UHF RFID handheld reader that allows the easiest way of integration of UHF RFID technology into everyday use. The reader is powered and controlled directly by an USB interface, thus allowing reading EPC Class 1 Gen2 UHF RFID tags.

HUR 120 USB has an integrated antenna for short- to medium-range applications. Thanks to its ergonomic shape and portability the reader is a perfect choice for various applications. This reader is ideal for USB handheld applications, in which high performance and advanced functionality is desired. HUR 120 is the European UHF RFID reader with the best price on the market with a two-year warranty.
