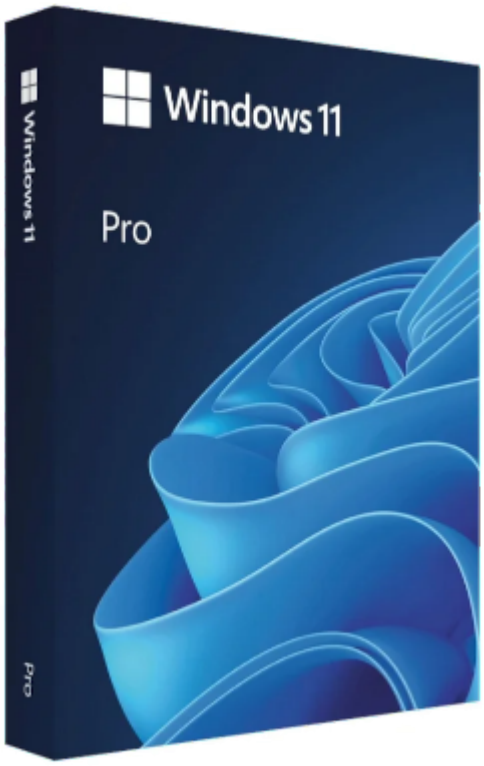
MS Window Professional 11 64-bit Czech OEM

The Windows 11 operating system was designed for the world of hybrid work. It takes the best of the popular Windows 10 and adds a host of new features for everyday use.

Minimum system requirements:



- **Processor:** 1 gigahertz (Ghz) or faster processor with 2 or more cores compatible with 64-bit architecture or System on a Chip (SoC) device
- **Memory:** 4 GB RAM
- **Storage**: 64GB or larger storage device
- **System firmware:** UEFI interface, secure boot option.
- **TPM**: Trusted Platform Module (TPM) specification version 2.0.
- **Graphics Card:** Compatible with DirectX 12 or later with WDDM 2.0 driver.
- **Screen**: High resolution (720p) display that is larger than 9”, 8 bits per color channel.
- **Internet connection:** A Microsoft account and Internet connection are required for setup for Windows 11 Home
